**Supplemental Request for Additional Information Regarding  
Dominion Nuclear North Anna, LLC (Dominion) Early Site Permit Application  
For the North Anna ESP Site**

Section number refers to the applicant's environmental report (ER) for the early site permit (ESP).

**Section 5.7    Uranium Fuel Cycle Impacts**

E5.7-1

The North Anna ESP environmental report used Table S-3 as the basis for evaluating the contribution of the environmental effects of the fuel cycle. Table S-3, however, did not estimate releases or consider the environmental effects of radon-222 and technetium-99. The effects of these gases should be included in the environmental report. Provide a detail analysis of estimated releases and environmental effects of radon-222 and technetium-99 for the uranium fuel cycle.
